

Wamuran State School

School review conducted 9 to 11 November 2021

Every Queensland state school is reviewed by the Department of Education at least once every four years. School reviews provide important feedback to support schools in continuing to deliver quality education and improve learning outcomes for students.

Review highlights

- ✓ Staff, students and parents speak positively of their connection to the school.
- ✓ Community members support and speak passionately about the school and the important place it has in the community.
- ✓ Parents describe the school as supporting the needs of their children.
- ✓ Students speak positively of their learning environments and feel supported by teachers.

Consultation

Total of 113 interviews

9 community members and stakeholders

41 school staff

39 students

24 parents and carers

Each school review generates a number of key improvement strategies to inform continuous improvement in all state schools. The next steps are...

- ➔ Utilise the support of regional staff to further enhance the building of teacher capability in curriculum implementation, with a particular focus on moderation and assessment practices.
- ➔ Collaboratively develop, implement and embed a shared whole-school understanding of the language of pedagogy, effective pedagogical practices and high impact teaching strategies to engage students in the Australian Curriculum.
- ➔ Further develop a collegial culture that invites and values voice and input by all members of staff and supports shared and sustained approaches to school direction.
- ➔ Collaboratively develop and enact a collegial engagement framework to support the building of an expert teaching team aligned with priorities through systematic approaches to observation, feedback, coaching and mentoring.
- ➔ Develop a whole-school approach to the systematic collection, analysis and reviewing of data across priority areas to inform achievement, monitor progress and direct school-wide approaches to intervention and resourcing arrangements.
